

## AUTOMATIC ELECTRIC SAMPLER

### MODEL M

- **SUITABLE FOR POWDERS AND GRANULES**
- **SAMPLE CATCHMENT FROM GRAVITY HOPPERS, CHUTES, ETC**
- **SIMPLE DUST-TIGHT CONSTRUCTION**

This electronically operated sampler is designed to provide a representative sample of powders and granules from gravity fed hoppers, chutes, etc.

The polished stainless steel body and auger are abrasion and corrosion resistant and with PTFE seals, permits the sampler to be used with a wide range of materials.

Operation is by electric operated geared motor fitted as standard.

The fixed spool is permanently in the product stream. A sample is taken once the geared motor is powered, turning the auger to screw out product sample continuously until deactivation.

Simple construction means a small number of parts and straight forward maintenance.
