

## MANUAL SAMPLER

### MODEL M - Manual

- **SUITABLE FOR POWDERS AND GRANULES**
- **SAMPLE CATCHMENT FROM GRAVITY HOPPERS, CHUTES, ETC**
- **SIMPLE DUST-TIGHT CONSTRUCTION**

This manually operated sampler is designed to provide a representative sample of powders and granules from gravity fed hoppers, chutes, etc.

The polished stainless steel body and auger permits the sampler to be used with a wide range of materials.

Operation is by manual hand crank operation as standard.

The fixed spool is permanently in the product stream. A sample is taken once the hand crank is turned, turning the auger to screw out product sample continuously until deactivation.

Simple construction means a small number of parts and straight forward maintenance.
